Solar Schools

Project

Crowfunded clean energy in Britain's classrooms

Territory : UK

Link to an online resource : <http://www.solarschools.org.uk/>

Language of your contribution : English Attached resources language : English

"The Solar Schools project is putting clean energy in classrooms. Schools set a fundraising target for their very own solar roof. Solar Schools is run by [10:10](#), a charity that brings people together to help tackle climate change."
